

## **Trishaw Coffee House**

The trishaw was a common means of transport back in the olden days in Singapore. The three-wheeled vehicle existed in its earlier form as the "Jinrikisha" in Shanghai in 1880 and was manually pulled by a rider in front of a seat attached to two big wheels. The trishaw made its debut in Singapore in the 1940s, and although we do not see many trishaws on the roads now, it remains a strong icon of our rich cultural history.
